

# JMIS Investment Management Funds Quarterly Fund Update

For the quarter ended 31 December 2016

## JMIS FIXED INCOME FUND

This fund update was first made publicly available on 25 January 2017

### What is the purpose of this update?

This document tells you how the JMIS Fixed Income Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. JMIS Investment Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

### Description of this fund

The JMIS Fixed Income Fund aims to provide income returns similar to yields available on investment grade corporate bonds. Offering capital stability over the medium to long term by investing in a well-diversified portfolio of mainly New Zealand fixed income securities. The portfolio will primarily be comprised of New Zealand corporate bonds, bank securities, local authority stock and cash investments. However, other forms of fixed interest securities and exchange traded funds may also be included.

Total value of the fund	\$ 73,178,670.59
The date the fund started	13 May 2014

### How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	2.42%
Annual return (after deductions for charges but before tax)	3.36%
Market index annual return (reflects no deduction for charges and tax)	2.51%

The market index annual return reflects the return for the S&P/NZX Bank Bills 90-Day Index.

Additional information about the market index is available on the offer register at [www.business.govt.nz/disclose](http://www.business.govt.nz/disclose).

### What are the risks of investing?

Risk indicator for the JMIS Fixed Income Fund<sup>1</sup>

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at [www.sorted.org.nz/tools/investor-kickstarter](http://www.sorted.org.nz/tools/investor-kickstarter).

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 31 December 2016. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

## Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2016.

**Important:** This does not tell you how the fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

## What fees are investors charged?

Investors in the JMIS Fixed Income Fund are charged fund charges. In the year to 31 March 2016 these were:

	% of net asset value
<b>Total fund charges</b>	0.75%
Comprising management and administration charges which are made up of:	
Manager's basic fee	0.40%
Other management and administration charges	0.35%

There are no performance fees charged in relation to any of the JMIS Funds.

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

### Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Sarah had \$10,000 in the JMIS Fixed Income Fund at the start of the year and did not make any further contributions. At the end of the year, Sarah received a return after fund charges were deducted of \$336 (that is 3.36% of her initial \$10,000). Sarah does not pay any other charges. This gives Sarah a total return after tax of \$242 for the year.

## What does the fund invest in?

This shows the types of assets that the JMIS Fixed Income Fund invests in.

Actual investment mix

Target investment mix

Asset Sector	Target Asset Allocation %	Range %
Cash and cash equivalents	5	0 - 30
New Zealand Fixed Interest	95	70 - 95
International Fixed Interest	0	0 - 20
Other Assets	0	0 - 10
<b>Total Asset Allocation</b>	<b>100</b>	

Top 10 investments

## Further information

You can also obtain this information, the PDS for the JMIS Funds, and some additional information from the offer register at [www.business.govt.nz/disclose](http://www.business.govt.nz/disclose).

## Notes

1. As the Fund commenced operations on 13 May 2014, a combination of actual fund returns and market index returns were used to determine the risk indicator. Therefore, it may provide a less reliable indicator of potential future volatility. For the five-year period ending 31 December 2016, market index returns have been used to 12 May 2014 with actual fund returns used for the balance of the period.
