

Clarity Funds Scheme

QUARTERLY FUND UPDATE

For the quarter ended 31 March 2018

This fund update was first made publicly available on 1 May 2018, and revised on 19 July 2018 to correct hedging statement.

CLARITY DIVIDEND YIELD FUND

What is the purpose of this update?

This document tells you how the Clarity Dividend Yield Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Clarity Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Fund aims to achieve returns over the medium to long term by investing primarily in a well-diversified portfolio of New Zealand and Australian equities selected to favour those securities with higher earnings and dividend yields. It may also invest in other assets on listed sharemarkets, fixed interest securities and cash.

The target mix is 10% for Australian and 60% for New Zealand equities, 20% listed property and 10% for Australasian cash and New Zealand fixed interest securities, but broad variations to this are likely.

Total value of the fund	\$ 72,190,225
The date the fund started	29 October 2013

What are the risks of investing?

Risk indicator for the Clarity Dividend Yield Fund¹:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 31 March 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past year
Annual return (after deductions for charges and tax)	7.44%
Annual return (after deductions for charges but before tax)	8.95%
Market index annual return (reflects no deduction for charges and tax)	12.17%

We calculate the market index annual return from 5 September 2016 by using 75% of the NZX50 Portfolio Index and 25% of the ASX 200 Accumulation Index in Australian dollars. Between 29 October 2013 and 4 September 2016 the NZX 90 Day Bank Bill Index was used as the benchmark index. Additional information about the market index is available on the offer register at www.business.govt.nz/disclose.

Annual return graph²

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2018.

Important: This does not tell you how the fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

What fees are investors charged?

Investors in the Clarity Dividend Yield Fund are charged fund charges. In the year to 31 March 2017 these were:

	% of net asset value
Total Fund Charges (incl GST)	0.97%
Comprising management and administration charges which are made up of:	
Manager's basic fee	0.64%
Other management and administration charges	0.33%

There are no performance fees charged in relation to the Clarity Dividend Yield Fund.

Investors are not charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Sarah had \$100,000 in the Clarity Dividend Yield Fund at the start of the year and did not make any further contributions. At the end of the year, Sarah received a return after fund charges were deducted of \$8,950 (that is 8.95% of her initial \$100,000). Sarah does not pay any other charges. This gives Sarah a total return after tax of \$7,440 for the year.

What does the fund invest in?

This shows the types of assets that the Clarity Dividend Yield Fund invests in

Further information

You can also obtain this information, the PDS for the Clarity Funds, and some additional information from the offer register at www.business.govt.nz/disclose.

Notes

1. As the Fund commenced operations on 29 October 2013, a combination of actual fund returns and market index returns were used to determine the risk indicator. Therefore, it may provide a less reliable indicator of potential future volatility. For the five-year period ending 31 March 2018, market index returns have been used to 28 October 2013 with actual fund returns used for the balance of the period.
2. The Market Index used to calculate the returns on the bar chart from 5 September 2016 is 75% of the NZX50 Portfolio Index and 25% of the ASX 200 Accumulation Index in Australian dollars. Between 29 October 2013 and 4 September 2016 the NZX 90 Day Bank Bill Index was used as the benchmark index.
