1. As the Fund commenced operations on 3 April 2017, a combination of actual fund returns and market index returns were used to determine the risk indicator. Therefore, it may provide a less reliable indicator of potential future volatility. For the five-year period ending 31 March 2018, market index returns have been used to 2 April 2017 with actual fund returns used for the balance of the period.
2. These fees are disclosed on a before-GST basis. Please refer to the PDS for further information.
3. As the Fund has not existed for a full financial year, this example is based on returns for the period 3 April 2017 to 31 March 2018.
