

# Clarity Fund Scheme QUARTERLY FUND UPDATE

#### For the quarter ended 31 March 2018

This fund update was first made publicly available on 1 May 2018

## **CLARITY FIXED INCOME FUND**

#### What is the purpose of this update?

This document tells you how the Clarity Fixed Income Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Clarity Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

#### **Description of this fund**

The Fund aims to provide income and capital stability over the medium term by investing in a well-diversified portfolio of mainly New Zealand fixed interest securities. Primarily comprised of New Zealand corporate bonds, bank securities, local authority stock and cash but it may also invest in international fixed interest securities and exchange traded funds.

| Total value of the fund   | \$ 109,714,361 |
|---------------------------|----------------|
| The date the fund started | 13 May 2014    |

#### What are the risks of investing?

Risk indicator for the Clarity Fixed Income Fund<sup>1</sup>:

| Lower | expecte | d return | NS H | igher ex | pected | returns |  |
|-------|---------|----------|------|----------|--------|---------|--|
| 1     | 2       | 3        | 4    | 5        | 6      | 7       |  |
| Lower | risk    |          |      |          | High   | er risk |  |

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at **www.sorted.org.nz/tools/investor-kickstarter**.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 31 March 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

#### How has the fund performed?

|   | Past year |
|---|-----------|
| Annual return (after deductions for charges and tax)              | 3.44%     |
| Annual return (after deductions for charges but before tax)       | 4.69%     |
| Market index annual return (after deductions for charges and tax) | 1.98%     |

The market index annual return reflects the return for the S&P/NZX Bank Bills 90-Day Index. Additional information about the market index is available on the offer register at **www.business.govt.nz/disclose**.

#### Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2018.

**Important:** This does not tell you how the fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

#### What fees are investors charged?

Investors in the Clarity Fixed Income Fund are charged fund charges. In the year to 31 March 2017 these were:

|  | % of net<br>asset value |
|--|-------------------------|
| Total Fund Charges (incl GST)  | 0.72%                   |
| Comprising management and<br>administration charges which are<br>made up of: |                         |
| Manager's basic fee  | 0.41%                   |
| Other management and administration charges                                  | 0.31%                   |

There are no performance fees charged in relation to the Clarity Fixed Income Fund.

Investors are not charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

#### Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Sarah had \$100,000 in the Clarity Fixed Income Fund at the start of the year and did not make any further contributions. At the end of the year, Sarah received a return after fund charges were deducted of \$4,690 (that is 4.69% of her initial \$100,000). Sarah does not pay any other charges. This gives Sarah a total return after tax of \$3,440 for the year.

#### What does the fund invest in?

This shows the types of assets that the Clarity Fixed Income Fund invests in

#### **Actual investment mix**

As at 31 March 2018, the Fund does not currently have any exposure to international fixed interest, therefore no hedging is required.

#### **Target investment mix**

| Asset sector                 | Target Asset Allocation % | Range % |
|------------------------------|---------------------------|---------|
| Cash and cash equivalents    | 5                         | 0 - 40  |
| New Zealand fixed interest   | 95                        | 60 - 95 |
| International fixed interest | 0                         | 0 - 20  |
| Other assets                 | 0                         | 0 - 10  |
| Total asset allocation       | 100                       |         |

#### **Top 10 investments**

#### **Further information**

You can also obtain this information, the PDS for the Clarity Funds, and some additional information from the offer register at **www.business.govt.nz /disclose**.

#### Notes

1. As the Fund commenced operations on 13 May 2014, a combination of actual fund returns and market index returns were used to determine the risk indicator. Therefore, it may provide a less reliable indicator of potential future volatility. For the five-year period ending 31 March 2018, market index returns have been used to 12 May 2014 with actual fund returns used for the balance of the period.

# Clarity Fund Scheme QUARTERLY FUND UPDATE

#### For the quarter ended 30 June 2018

This fund update was first made publicly available on 26 July 2018

## **CLARITY FIXED INCOME FUND**

#### What is the purpose of this update?

This document tells you how the Clarity Fixed Income Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Clarity Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

#### **Description of this fund**

The Fund aims to provide income and capital stability over the medium term by investing in a well-diversified portfolio of mainly New Zealand fixed interest securities. Primarily comprised of New Zealand corporate bonds, bank securities, local authority stock and cash but it may also invest in international fixed interest securities and exchange traded funds.

| Total value of the fund   | \$ 123,405,023 |
|---------------------------|----------------|
| The date the fund started | 13 May 2014    |

#### What are the risks of investing?

Risk indicator for the Clarity Fixed Income Fund<sup>1</sup>:

| Lower | expecte | d return | vs H | igher ex | pected | returns |  |
|-------|---------|----------|------|----------|--------|---------|--|
| 1     | 2       | 3        | 4    | 5        | 6      | 7       |  |
| Lower | risk    |          |      |          | High   | er risk |  |

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at **www.sorted.org.nz/tools/investor-kickstarter**.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 30 June 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

#### How has the fund performed?

|   | Past year |
|---|-----------|
| Annual return (after deductions for charges and tax)              | 3.09%     |
| Annual return (after deductions for charges but before tax)       | 4.31%     |
| Market index annual return (after deductions for charges and tax) | 1.96%     |

The market index annual return reflects the return for the S&P/NZX Bank Bills 90-Day Index. Additional information about the market index is available on the offer register at **www.business.govt.nz/disclose**.

#### Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 June 2018.

**Important:** This does not tell you how the fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

#### What fees are investors charged?

Investors in the Clarity Fixed Income Fund are charged fund charges. In the year to 31 March 2018 these were:

|  | % of net<br>asset value |
|--|-------------------------|
| Total Fund Charges (incl GST)  | 0.77%                   |
| Comprising management and<br>administration charges which are<br>made up of: |                         |
| Manager's basic fee  | 0.40%                   |
| Other management and administration charges                                  | 0.37%                   |

There are no performance fees charged in relation to the Clarity Fixed Income Fund.

Investors are not charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

#### Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Sarah had \$100,000 in the Clarity Fixed Income Fund at the start of the year and did not make any further contributions. At the end of the year, Sarah received a return after fund charges were deducted of \$4,310 (that is 4.31% of her initial \$100,000). Sarah does not pay any other charges. This gives Sarah a total return after tax of \$3,090 for the year.

#### What does the fund invest in?

This shows the types of assets that the Clarity Fixed Income Fund invests in

#### **Actual investment mix**

As at 30 June 2018, the Fund does not currently have any exposure to international fixed interest, therefore no hedging is required.

#### **Target investment mix**

| Asset sector                 | Target Asset Allocation % | Range % |
|------------------------------|---------------------------|---------|
| Cash and cash equivalents    | 5                         | 0 - 40  |
| New Zealand fixed interest   | 95                        | 60 - 95 |
| International fixed interest | 0                         | 0 - 20  |
| Other assets                 | 0                         | 0 - 10  |
| Total asset allocation       | 100                       |         |

# QUARTERLY FUND UPDATE

For the quarter ended 30 September 2018 This fund update was first made publicly available on 29 October 2018

## **CLARITY FIXED INCOME FUND**

#### What is the purpose of this update?

This document tells you how the Clarity Fixed Income Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Clarity Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

#### **Description of this fund**

The Fund aims to provide income and capital stability over the medium term by investing in a well-diversified portfolio of mainly New Zealand fixed interest securities. Primarily comprised of New Zealand corporate bonds, bank securities, local authority stock and cash but it may also invest in international fixed interest securities and exchange traded funds.

| Total value of the fund | \$139,979,383 |
|-------------------------|---------------|
| Date the fund started   | 13 May 2014   |

#### What are the risks of investing?

Risk indicator for the Clarity Fixed Income Fund<sup>1</sup>:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 30 September 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

#### How has the fund performed?

|  | Past Year |
|--|-----------|
| Annual Fund Return (after deduction for fund charges and tax)          | 2.98%     |
| Annual Fund Return (after deduction for fund charges but before tax)   | 4.16%     |
| Market index annual return (reflects no deduction for charges and tax) | 1.95%     |

The market index annual return reflects the return for the S&P/NZX Bank Bills 90-Day Index. Additional information about the market index is available on the offer register at www.business.govt.nz/disclose.

#### Annual return graph

Clarity Fixed Income Fund Narket Index

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 September 2018. **Important**: This does not tell you how the fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

#### What fees are investors charged?

Investors in the Clarity Fixed Income Fund are charged fund charges. In the year to 31 March 2018 these were:

| % of Ne  | t Asset Value |
|--|---------------|
| Total Fund Charges (incl GST)  | 0.81%         |
| Comprising management and administration charges which are made up of: |               |
| Manager's basic fee  | 0.41%         |
| Other management and administration charges                            | 0.40%         |

There are no performance fees charged in relation to the Clarity Fixed Income Fund.

Investors are not charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

#### Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Chris had \$10,000 in the Clarity Fixed Income Fund at the start of the year and did not make any further contributions. At the end of the year, Chris received a return after fund charges were deducted of \$416 (that is 4.16% of his initial \$10,000). Chris does not pay any other charges. This gives Chris a total return after tax of \$298 for the year.

#### Top 10 investments

#### What does the fund invest in?

This shows the types of assets that the Clarity Fixed Income Fund invests in.

#### Actual investment mix

As at 30 September 2018, the Fund does not currently have any exposure to international fixed interest, therefore no hedging is required.

#### Target investment mix

| Asset sector                 | Target Asset<br>Allocation % | Range % |
|------------------------------|------------------------------|---------|
| Cash and cash equivalents    | 5                            | 0 - 40  |
| New Zealand fixed interest   | 95                           | 60 - 95 |
| International fixed interest | 0                            | 0 - 20  |
| Other assets                 | 0                            | 0 - 10  |
| Total asset allocation       | 100                          |         |

| Asset name   | Country | Туре                       | Credit rating (if appli-<br>cable) | % of fund net assets |
|--|---------|----------------------------|------------------------------------|----------------------|

#### Further information

You can also obtain this information, the PDS for the Clarity Funds, and some additional information from the offer register at www.business.govt.nz/disclose.

1. As the Fund commenced operations on 13 May 2014, a combination of actual fund returns and market index returns were used to determine the risk indicator. Therefore, it may provide a less reliable indicator of potential future volatility. For the five-year period ending 30 September 2018, market index returns have been used to 12 May 2014 with actual fund returns used for the balance of the period.

# QUARTERLY FUND UPDATE

For the quarter ended 31 December 2018

This fund update was first made publicly available on 8 February 2019

## **CLARITY FIXED INCOME FUND**

#### What is the purpose of this update?

This document tells you how the Clarity Fixed Income Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Clarity Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

#### **Description of this fund**

The Fund aims to provide income and capital stability over the medium term by investing in a well-diversified portfolio of mainly New Zealand fixed interest securities. Primarily comprised of New Zealand corporate bonds, bank securities, local authority stock and cash but it may also invest in international fixed interest securities and exchange traded funds.

| Total value of the fund | \$146,635,847 |
|-------------------------|---------------|
| Date the fund started   | 13 May 2014   |

#### What are the risks of investing?

Risk indicator for the Clarity Fixed Income Fund<sup>1</sup>:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 31 December 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

#### How has the fund performed?

|  | Past Year |
|--|-----------|
| Annual Fund Return (after deduction for fund charges and tax)          | 2.91%     |
| Annual Fund Return (after deduction for fund charges but before tax)   | 4.08%     |
| Market index annual return (reflects no deduction for charges and tax) | 1.97%     |

The market index annual return reflects the return for the S&P/NZX Bank Bills 90-Day Index. Additional information about the market index is available on the offer register at www.business.govt.nz/disclose.

#### Annual return graph

Clarity Fixed Income Fund Market Index

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 December 2018. **Important**: This does not tell you how the fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

#### What fees are investors charged?

Investors in the Clarity Fixed Income Fund are charged fund charges. In the year to 31 March 2018 these were:

| % of Ne  | et Asset Value |
|--|----------------|
| Total Fund Charges (incl GST)  | 0.81%          |
| Comprising management and administration charges which are made up of: |                |
| Manager's basic fee  | 0.41%          |
| Other management and administration charges                            | 0.40%          |

There are no performance fees charged in relation to the Clarity Fixed Income Fund.

Investors are not charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

#### Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Chris had \$10,000 in the Clarity Fixed Income Fund at the start of the year and did not make any further contributions. At the end of the year, Chris received a return after fund charges were deducted of \$408 (that is 4.08% of his initial \$10,000). Chris does not pay any other charges. This gives Chris a total return after tax of \$291 for the year.

#### Top 10 investments

#### What does the fund invest in?

The chart (below) shows the types of assets that the Clarity Fixed  $\ensuremath{\mathsf{Income}}$  Fund invests in.

#### Actual investment mix

As at 31 December 2018, the Fund does not currently have any exposure to international fixed interest, therefore no hedging is required.

#### Target investment mix

| Asset sector                 | Target Asset<br>Allocation % | Range % |
|------------------------------|------------------------------|---------|
| Cash and cash equivalents    | 5                            | 0 - 40  |
| New Zealand fixed interest   | 95                           | 60 - 95 |
| International fixed interest | 0                            | 0 - 20  |
| Other assets                 | 0                            | 0 - 10  |
| Total asset allocation       | 100                          |         |

#### **Further information**

You can also obtain this information, the PDS for the Clarity Funds, and some additional information from the offer register at www.business.govt.nz/disclose.

 As the Fund commenced operations on 13 May 2014, a combination of actual fund returns and market index returns were used to determine the risk indicator. Therefore, it may provide a less reliable indicator of potential future volatility. For the five-year period ending 31 December 2018, market index returns have been used to 12 May 2014 with actual fund returns used for the balance of the period.

## Clarity Funds Scheme QUARTERLY FUND UPDATE

#### For the quarter ended 31 March 2018

This fund update was first made publicly available on 1 May 2018, and revised on 19 July 2018 to correct hedging statement.

## **CLARITY DIVIDEND YIELD FUND**

#### What is the purpose of this update?

This document tells you how the Clarity Dividend Yield Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Clarity Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

#### **Description of this fund**

The Fund aims to achieve returns over the medium to long term by investing primarily in a well-diversified portfolio of New Zealand and Australian equities selected to favour those securities with higher earnings and dividend yields. It may also invest in other assets on listed sharemarkets, fixed interest securities and cash.

The target mix is 10% for Australian and 60% for New Zealand equities, 20% listed property and 10% for Australasian cash and New Zealand fixed interest securities, but broad variations to this are likely.

| Total value of the fund   | \$ 72,190,225   |
|---------------------------|-----------------|
| The date the fund started | 29 October 2013 |

#### What are the risks of investing?

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at **www.sorted.org.nz/tools/investor-kickstarter**.

Note that even the lowest category does not mean a riskfree investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 31 March 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

#### How has the fund performed?

|  | Past year |
|--|-----------|
| Annual return (after deductions for charges and tax)                   | 7.44%     |
| Annual return (after deductions for charges but before tax)            | 8.95%     |
| Market index annual return (reflects no deduction for charges and tax) | 12.17%    |

We calculate the market index annual return from 5 September 2016 by using 75% of the NZX50 Portfolio Index and 25% of the ASX 200 Accumulation Index in Australian dollars. Between 29 October 2013 and 4 September 2016 the NZX 90 Day Bank Bill Index was used as the benchmark index. Additional information about the market index is available on the offer register at **www.business.govt.nz/disclose**.

### Annual return graph<sup>2</sup>

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 March 2018.

**Important:** This does not tell you how the fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

#### What fees are investors charged?

Investors in the Clarity Dividend Yield Fund are charged fund charges. In the year to 31 March 2017 these were:

|  | % of net<br>asset value |
|--|-------------------------|
| Total Fund Charges (incl GST)  | 0.97%                   |
| Comprising management and<br>administration charges which are<br>made up of: |                         |
| Manager's basic fee  | 0.64%                   |
| Other management and administration charges                                  | 0.33%                   |

There are no performance fees charged in relation to the Clarity Dividend Yield Fund.

Investors are not charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

## Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Sarah had \$100,000 in the Clarity Dividend Yield Fund at the start of the year and did not make any further contributions. At the end of the year, Sarah received a return after fund charges were deducted of \$8,950 (that is 8.95% of her initial \$100,000). Sarah does not pay any other charges. This gives Sarah a total return after tax of \$7,440 for the year.

### What does the fund invest in?

This shows the types of assets that the Clarity Dividend Yield Fund invests in

#### **Actual investment mix**

As at 31 March 2018, the Fund has an exposure of 33.5% to Australian assets and 88.8% of this exposure is hedged.

#### **Target investment mix**

| Asset sector                 | Target Asset Allocation % | Range % |
|------------------------------|---------------------------|---------|
| Cash and cash equivalents    | 5                         | 0 - 30  |
| Australasian equities        | 70                        | 0 - 100 |
| International equities       | 0                         | 0 - 5   |
| Listed property              | 20                        | 0 - 40  |
| New Zealand fixed interest   | 5                         | 0 - 10  |
| International fixed interest | 0                         | 0 - 10  |
| Other assets                 | 0                         | 0 - 10  |
| Total asset allocation       | 100                       |         |

#### **Further information**

You can also obtain this information, the PDS for the Clarity Funds, and some additional information from the offer register at **www.business.govt.nz/disclose**.

#### Notes

- 1. As the Fund commenced operations on 29 October 2013, a combination of actual fund returns and market index returns were used to determine the risk indicator. Therefore, it may provide a less reliable indicator of potential future volatility. For the five-year period ending 31 March 2018, market index returns have been used to 28 October 2013 with actual fund returns used for the balance of the period.
- 2. The Market Index used to calculate the returns on the bar chart from 5 September 2016 is 75% of the NZX50 Portfolio Index and 25% of the ASX 200 Accumulation Index in Australian dollars. Between 29 October 2013 and 4 September 2016 the NZX 90 Day Bank Bill Index was used as the benchmark index.

## Clarity Funds Scheme QUARTERLY FUND UPDATE

For the quarter ended 30 June 2018

This fund update was first made publicly available on 26 July 2018

## **CLARITY DIVIDEND YIELD FUND**

#### What is the purpose of this update?

This document tells you how the Clarity Dividend Yield Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Clarity Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

### **Description of this fund**

The Fund aims to achieve returns over the medium to long term by investing primarily in a well-diversified portfolio of New Zealand and Australian equities selected to favour those securities with higher earnings and dividend yields. It may also invest in other assets on listed sharemarkets, fixed interest securities and cash.

The target mix is 10% for Australian equities and 60% for New Zealand equities, 20% listed property and 10% for Australasian cash and New Zealand fixed interest securities, but broad variations to this are likely.

| Total value of the fund   | \$ 83,959,078   |
|---------------------------|-----------------|
| The date the fund started | 29 October 2013 |

### What are the risks of investing?

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at **www.sorted.org.nz/tools/investor-kickstarter**.

Note that even the lowest category does not mean a riskfree investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 30 June 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

#### How has the fund performed?

|  | Past year |
|--|-----------|
| Annual return (after deductions for charges and tax)                   | 9.98%     |
| Annual return (after deductions for charges but before tax)            | 11.14%    |
| Market index annual return (reflects no deduction for charges and tax) | 16.56%    |

We calculate the market index annual return from 5 September 2016 by using 75% of the NZX50 Portfolio Index and 25% of the ASX 200 Accumulation Index in Australian dollars. Between 29 October 2013 and 4 September 2016 the NZX 90 Day Bank Bill Index was used as the benchmark index. Additional information about the market index is available on the offer register at **www.business.govt.nz/disclose**.

### Annual return graph<sup>2</sup>

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 June 2018.

**Important:** This does not tell you how the fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

#### What fees are investors charged?

Investors in the Clarity Dividend Yield Fund are charged fund charges. In the year to 31 March 2018 these were:

|  | % of net<br>asset value |
|--|-------------------------|
| Total Fund Charges (incl GST)  | 1.01%                   |
| Comprising management and<br>administration charges which are<br>made up of: |                         |
| Manager's basic fee  | 0.64%                   |
| Other management and administration charges                                  | 0.37%                   |

There are no performance fees charged in relation to the Clarity Dividend Yield Fund.

Investors are not charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

## Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Sarah had \$100,000 in the Clarity Dividend Yield Fund at the start of the year and did not make any further contributions. At the end of the year, Sarah received a return after fund charges were deducted of \$11,140 (that is 11.14% of her initial \$100,000). Sarah does not pay any other charges. This gives Sarah a total return after tax of \$9,980 for the year.

### What does the fund invest in?

This shows the types of assets that the Clarity Dividend Yield Fund invests in

#### **Actual investment mix**

As at 30 June 2018, the Fund has an exposure of 35.1% to Australian assets and 84.5% of this exposure is hedged.

#### **Target investment mix**

| Asset sector                 | Target Asset Allocation % | Range % |
|------------------------------|---------------------------|---------|
| Cash and cash equivalents    | 5                         | 0 - 30  |
| Australasian equities        | 70                        | 0 - 100 |
| International equities       | 0                         | 0 - 5   |
| Listed property              | 20                        | 0 - 40  |
| New Zealand fixed interest   | 5                         | 0 - 10  |
| International fixed interest | 0                         | 0 - 10  |
| Other assets                 | 0                         | 0 - 10  |
| Total asset allocation       | 100                       |         |

# QUARTERLY FUND UPDATE

For the quarter ended 30 September 2018 This fund update was first made publicly available on on 29 October 2018

## **CLARITY DIVIDEND YIELD FUND**

#### What is the purpose of this update?

This document tells you how the Clarity Dividend Yield Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Clarity Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

#### **Description of this fund**

The Fund aims to achieve returns over the medium to long term by investing primarily in a well-diversified portfolio of New Zealand and Australian equities selected to favour those securities with higher earnings and dividend yields. It may also invest in other assets on listed sharemarkets, fixed interest securities and cash.

The target mix is 10% for Australian equities and 60% for New Zealand equities, 20% listed property and 10% for Australasian cash and New Zealand fixed interest securities, but broad variations to this are likely.

| Total value of the fund | \$93,413,983    |
|-------------------------|-----------------|
| Date the fund started   | 29 October 2013 |

#### How has the fund performed?

#### What are the risks of investing?

Risk indicator for the Clarity Dividend Yield Fund<sup>1</sup>:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 30 September 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

|  | Past Year |
|--|-----------|
| Annual Fund Return (after deduction for fund charges and tax)          | 8.60%     |
| Annual Fund Return (after deduction for fund charges but before tax)   | 9.84%     |
| Market index annual return (reflects no deduction for charges and tax) | 16.95%    |

We calculate the market index annual return from 5 September 2016 by using 75% of the NZX50 Portfolio Index and 25% of the ASX 200 Accumulation Index in Australian dollars. Between 29 October 2013 and 4 September 2016 the NZX 90 Day Bank Bill Index was used as the benchmark index. Additional information about the market index is available on the offer register at www.business.govt.nz/disclose.

#### Annual return graph<sup>2</sup>

Clarity Dividend Yield Fund
Market Index

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 30 September 2018. **Important**: This does not tell you how the fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

#### What fees are investors charged?

Investors in the Clarity Dividend Yield Fund are charged fund charges. In the year to 31 March 2018 these were:

| % of Ne  | et Asset Value |
|--|----------------|
| Total Fund Charges (incl GST)  | 1.06%          |
| Comprising management and administration charges which are made up of: |                |
| Manager's basic fee  | 0.66%          |
| Other management and administration charges                            | 0.40%          |

There are no performance fees charged in relation to the Clarity Dividend Yield Fund.

Investors are not charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

#### Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Chris had \$10,000 in the Clarity Dividend Yield Fund at the start of the year and did not make any further contributions. At the end of the year, Chris received a return after fund charges were deducted of \$984 (that is 9.84% of his initial \$10,000). Chris does not pay any other charges. This gives Chris a total return after tax of \$860 for the year.

#### **Further information**

You can also obtain this information, the PDS for the Clarity Funds, and some additional information from the offer register at www.business.govt.nz/disclose.

1. As the Fund commenced operations on 29 October 2013, a combination of actual fund returns and market index returns were used to determine the risk indicator. Therefore, it may provide a less reliable indicator of potential future volatility. For the five-year period ending 30 September 2018, market index returns have been used to 28 October 2013 with actual fund returns used for the balance of the period.

 The Market Index used to calculate the returns on the bar chart from 5 September 2016 is 75% of the NZX50 Portfolio Index and 25% of the ASX 200 Accumulation Index in Australian dollars. Between 29 October 2013 and 4 September 2016 the NZX 90 Day Bank Bill Index was used as the benchmark index.

# QUARTERLY FUND UPDATE

For the quarter ended 31 December 2018

This fund update was first made publicly available on on 8 February 2019

## **CLARITY DIVIDEND YIELD FUND**

#### What is the purpose of this update?

This document tells you how the Clarity Dividend Yield Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Clarity Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

#### **Description of this fund**

The Fund aims to achieve returns over the medium to long term by investing primarily in a well-diversified portfolio of New Zealand and Australian equities selected to favour those securities with higher earnings and dividend yields. It may also invest in other assets on listed sharemarkets, fixed interest securities and cash.

The target mix is 10% for Australian equities and 60% for New Zealand equities, 20% listed property and 10% for Australasian cash and New Zealand fixed interest securities, but broad variations to this are likely.

| Total value of the fund | \$95,585,608    |
|-------------------------|-----------------|
| Date the fund started   | 29 October 2013 |

#### How has the fund performed?

#### What are the risks of investing?

Risk indicator for the Clarity Dividend Yield Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 31 December 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

|  | Avg. over past 5 Years | Past Year |
|--|------------------------|-----------|
| Annual Fund Return (after deduction for fund charges and tax)          | 11.61%                 | -3.88%    |
| Annual Fund Return (after deduction for fund charges but before tax)   | 13.41%                 | -2.32%    |
| Market index annual return (reflects no deduction for charges and tax) | 5.43%                  | 3.20%     |

We calculate the market index annual return from 5 September 2016 by using 75% of the NZX50 Portfolio Index and 25% of the ASX 200 Accumulation Index in Australian dollars. Between 29 October 2013 and 4 September 2016 the NZX 90 Day Bank Bill Index was used as the benchmark index. Additional information about the market index is available on the offer register at www.business.govt.nz/disclose.

#### Annual return graph<sup>1</sup>

Clarity Dividend Yield Fund Market Index

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started, up to 31 December 2018. **Important**: This does not tell you how the fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

#### What fees are investors charged?

Investors in the Clarity Dividend Yield Fund are charged fund charges. In the year to 31 March 2018 these were:

| % of Ne  | et Asset Value |
|--|----------------|
| Total Fund Charges (incl GST)  | 1.06%          |
| Comprising management and administration charges which are made up of: |                |
| Manager's basic fee  | 0.66%          |
| Other management and administration charges                            | 0.40%          |

There are no performance fees charged in relation to the Clarity Dividend Yield Fund.

Investors are not charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

#### Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Chris had \$10,000 in the Clarity Dividend Yield Fund at the start of the year and did not make any further contributions. At the end of the year, Chris received a return after fund charges were deducted of -\$232 (that is -2.32% of his initial \$10,000). Chris does not pay any other charges. This gives Chris a total return after tax of -\$388 for the year.

#### Top 10 investments

#### What does the fund invest in?

The chart (below) shows the types of assets that the Clarity Dividend Yield Fund invests in.

#### Actual investment mix

As at 31 December 2018, the Fund has an foreign currency exposure of 29.78% to Australian assets and 98.57% of this exposure is hedged.

#### Target investment mix

| Asset sector                 | Target Asset<br>Allocation % | Range % |

#### **Further information**

You can also obtain this information, the PDS for the Clarity Funds, and some additional information from the offer register at www.business.govt.nz/disclose.

1. The Market Index used to calculate the returns on the bar chart from 5 September 2016 is 75% of the NZX50 Portfolio Index and 25% of the ASX 200 Accumulation Index in Australian dollars. Between 29 October 2013 and 4 September 2016 the NZX 90 Day Bank Bill Index was used as the benchmark index.

# Clarity Funds Scheme QUARTERLY FUND UPDATE

#### For the quarter ended 31 March 2018

This fund update was first made publicly available on 1 May 2018

## **CLARITY TRANS-TASMAN FUND**

#### What is the purpose of this update?

This document tells you how the Clarity Trans-Tasman Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Clarity Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

#### **Description of this fund**

The Fund aims to achieve returns over the medium to long term. It will invest in a well-diversified portfolio of primarily New Zealand and Australian listed equities, selected to favour those securities with higher earnings and dividend yields and strong net tangible asset backing. It will also hold cash for liquidity purposes and may invest in other assets on listed sharemarkets.

The Fund is actively managed. The actual holdings may differ considerably from the target mix of 95% Australasian equities (50:50 mix of Australian and New Zealand equities) and 5% cash.

| Total value of the fund   | \$ 137,000,934  |
|---------------------------|-----------------|
| The date the fund started | 1 November 2007 |

### What are the risks of investing?

Risk indicator for the Clarity Trans-Tasman Fund:

Lower expected returns Higher expected returns

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at **www.sorted.org.nz/tools/investor-kickstarter**.

Note that even the lowest category does not mean a riskfree investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 31 March 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

### How has the fund performed?

|  | Average over<br>past 5 years | Past year |
|--|------------------------------|-----------|
| Annual return (after deductions for charges and tax)                   | 8.91%                        | 5.51%     |
| Annual return (after deductions for charges but before tax)            | 10.20%                       | 6.55%     |
| Market index annual return (reflects no deduction for charges and tax) | 9.28%                        | 7.67%     |

We calculate the market index annual return from 1 April 2013 by using 50% of the NZX50 Portfolio Index and 50% of the ASX200 Accumulation Index in NZ dollars. Between 1 November 2007 and 31 March 2013 the market index return was based on 50% NZSE50 Portfolio Index and 50% ASX 200 Index in NZ dollars. Additional information about the market index is available on the offer register at **www.business.govt.nz/disclose**.

#### Annual return graph<sup>1</sup>

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 completed years to 31 March 2018.

**Important:** This does not tell you how the fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

#### What fees are investors charged?

Investors in the Clarity Trans-Tasman Fund are charged fund charges. In the year to 31 March 2017 these were:

|  | % of Net<br>Asset Value |
|--|-------------------------|
| Total Fund Charges (incl GST)  | 0.95%                   |
| Comprising management and<br>administration charges which are<br>made up of: |                         |
| Manager's basic fee  | 0.66%                   |
| Other management and administration charges                                  | 0.29%                   |

There are no performance fees charged in relation to the Clarity Trans-Tasman Fund.

Investors are not charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

## Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Sarah had \$100,000 in the Clarity Trans-Tasman Fund at the start of the year and did not make any further contributions. At the end of the year, Sarah received a return after fund charges were deducted of \$6,550 (that is 6.55% of her initial \$100,000). Sarah does not pay any other charges. This gives Sarah a total return after tax of \$5,510 for the year.

#### What does the fund invest in?

This shows the types of assets that the Clarity Trans-Tasman Fund invests in

#### **Actual investment mix**

As at 31 March 2018, the Fund has an exposure of 55.9% in Australian assets. The Manager has the ability to hedge this exposure but does not currently do so.

#### **Target investment mix**

| Asset sector              | Target Asset Allocation % | Range %  |
|---------------------------|---------------------------|----------|
| Cash and cash equivalents | 5                         | 0 - 40   |
| Australasian equities     | 95                        | 40 - 100 |
| International equities    | 0                         | 0 - 5    |
| Listed property           | 0                         | 0 - 10   |
| Other assets              | 0                         | 0 - 10   |
| Total asset allocation    | 100                       |          |

#### **Top 10 investments**

## Clarity Funds Scheme QUARTERLY FUND UPDATE

#### For the quarter ended 30 June 2018

This fund update was first made publicly available on 26 July 2018

## **CLARITY TRANS-TASMAN FUND**

#### What is the purpose of this update?

This document tells you how the Clarity Trans-Tasman Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Clarity Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

#### **Description of this fund**

The Fund aims to achieve returns over the medium to long term. It will invest in a well-diversified portfolio of primarily New Zealand and Australian listed equities, selected to favour those securities with higher earnings and dividend yields and strong net tangible asset backing. It will also hold cash for liquidity purposes and may invest in other assets on listed sharemarkets.

The Fund is actively managed. The actual holdings may differ considerably from the target mix of 95% Australasian equities (50:50 mix of Australian and New Zealand equities) and 5% cash.

| Total value of the fund   | \$ 145,815,711  |
|---------------------------|-----------------|
| The date the fund started | 1 November 2007 |

#### What are the risks of investing?

Risk indicator for the Clarity Trans-Tasman Fund:

Lower expected returns Higher expected returns

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at **www.sorted.org.nz/tools/investor-kickstarter**.

Note that even the lowest category does not mean a riskfree investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 30 June 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

### How has the fund performed?

|  | Average over<br>past 5 years | Past year |
|--|------------------------------|-----------|
| Annual return (after deductions for charges and tax)                   | 11.69%                       | 14.89%    |
| Annual return (after deductions for charges but before tax)            | 13.01%                       | 16.15%    |
| Market index annual return (reflects no deduction for charges and tax) | 12.07%                       | 17.88%    |

We calculate the market index annual return from 1 April 2013 by using 50% of the NZX50 Portfolio Index and 50% of the ASX200 Accumulation Index in NZ dollars. Additional information about the market index is available on the offer register at **www.business.govt.nz/disclose**.

#### Annual return graph<sup>1</sup>

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 completed years to 30 June 2018.

**Important:** This does not tell you how the fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

#### What fees are investors charged?

Investors in the Clarity Trans-Tasman Fund are charged fund charges. In the year to 31 March 2018 these were:

|  | % of Net<br>Asset Value |
|--|-------------------------|
| Total Fund Charges (incl GST)  | 1.02%                   |
| Comprising management and<br>administration charges which are<br>made up of: |                         |
| Manager's basic fee  | 0.65%                   |
| Other management and administration charges                                  | 0.37%                   |

There are no performance fees charged in relation to the Clarity Trans-Tasman Fund.

Investors are not charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

## Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Sarah had \$100,000 in the Clarity Trans-Tasman Fund at the start of the year and did not make any further contributions. At the end of the year, Sarah received a return after fund charges were deducted of \$16,150 (that is 16.15% of her initial \$100,000). Sarah does not pay any other charges. This gives Sarah a total return after tax of \$14,890 for the year.

#### What does the fund invest in?

This shows the types of assets that the Clarity Trans-Tasman Fund invests in

#### **Actual investment mix**

As at 30 June 2018, the Fund has an exposure of 56.6% in Australian assets. The Manager has the ability to hedge this exposure but does not currently do so.

#### **Target investment mix**

| Asset sector              | Target Asset Allocation % | Range %  |
|---------------------------|---------------------------|----------|
| Cash and cash equivalents | 5                         | 0 - 40   |
| Australasian equities     | 95                        | 40 - 100 |
| International equities    | 0                         | 0 - 5    |
| Listed property           | 0                         | 0 - 10   |
| Other assets              | 0                         | 0 - 10   |
| Total asset allocation    | 100                       |          |

#### **Top 10 investments**

|    | Name                           | Country     | Туре                  | Credit rating<br>(if<br>applicable) | % of Net<br>Asset Value |
|----|--------------------------------|-------------|-----------------------|-------------------------------------|-------------------------|
| 1  | BHP Billiton                   | Australia   | Australasian Equities |                                     | 6.09%                   |
| 2  | Westpac Banking Corporation    | Australia   | Australasian Equities |                                     | 4.91%                   |
| 3  | Rio Tinto                      | Australia   | Australasian Equities |                                     | 4.72%                   |
| 4  | Australia and NZ Banking Group | Australia   | Australasian Equities |                                     | 4.66%                   |
| 5  | Metlifecare                    | New Zealand | Australasian Equities |                                     | 4.13%                   |
| 6  | Seven Group Holdings           | Australia   | Australasian Equities |                                     | 3.69%                   |
| 7  | Contact Energy                 | New Zealand | Australasian Equities |                                     | 3.54%                   |
| 8  | Caltex Australia               | Australia   | Australasian Equities |                                     | 3.40%                   |
| 9  | Sanford                        | New Zealand | Australasian Equities |                                     | 3.36%                   |
| 10 | AGL Energy                     | Australia   | Australasian Equities |                                     | 3.29%                   |

The top 10 investments make up 41.79% of the net asset value of the Fund.

# QUARTERLY FUND UPDATE

For the quarter ended 30 September 2018 This fund update was first made publicly available on 29 October 2018

## **CLARITY TRANS-TASMAN FUND**

#### What is the purpose of this update?

This document tells you how the Clarity Trans-Tasman Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Clarity Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

#### **Description of this fund**

The Fund aims to achieve returns over the medium to long term. It will invest in a well-diversified portfolio of primarily New Zealand and Australian listed equities, selected to favour those securities with higher earnings and dividend yields and strong net tangible asset backing. It will also hold cash for liquidity purposes and may invest in other assets on listed sharemarkets.

The Fund is actively managed. The actual holdings may differ considerably from the target mix of 95% Australasian equities (50:50 mix of Australian and New Zealand equities) and 5% cash.

| Total value of the fund | \$145,150,942   |
|-------------------------|-----------------|
| Date the fund started   | 1 November 2007 |

#### How has the fund performed?

#### What are the risks of investing?

Risk indicator for the Clarity Trans-Tasman Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 30 September 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

|  | Avg. over past 5 Years | Past Year |
|--|------------------------|-----------|
| Annual Fund Return (after deduction for fund charges and tax)          | 10.21%                 | 7.90%     |
| Annual Fund Return (after deduction for fund charges but before tax)   | 11.53%                 | 8.95%     |
| Market index annual return (reflects no deduction for charges and tax) | 11.59%                 | 16.34%    |

We calculate the market index annual return from 1 April 2013 by using 50% of the NZX50 Portfolio Index and 50% of the ASX200 Accumulation Index in NZ dollars. Between 1 November 2007 and 31 March 2013 the market index return was based on 50% NZSE50 Portfolio Index and 50% ASX 200 Index in NZ dollars. Additional information about the market index is available on the offer register at www.business.govt.nz/disclose.

#### Annual return graph<sup>1</sup>

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 completed years to 30 September 2018. **Important**: This does not tell you how the fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

#### What fees are investors charged?

Investors in the Clarity Trans-Tasman Fund are charged fund charges. In the year to 31 March 2018 these were:

| % of   | Net Asset Value |
|--|-----------------|
| Total Fund Charges (incl GST)  | 1.06%           |
| Comprising management and administration charges which are made up of: |                 |
| Manager's basic fee  | 0.66%           |
| Other management and administration charges                            | 0.40%           |

There are no performance fees charged in relation to the Clarity Trans-Tasman Fund.

Investors are not charged indivi dual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

#### Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Chris had \$10,000 in the Clarity Trans-Tasman Fund at the start of the year and did not make any further contributions. At the end of the year, Chris received a return after fund charges were deducted of \$895 (that is 8.95% of his initial \$10,000). Chris does not pay any other charges. This gives Chris a total return after tax of \$790 for the year.

#### Top 10 investments

#### What does the fund invest in?

The chart (below) shows the types of assets that the Clarity Trans-Tasman Fund invests in.

#### Actual investment mix

As at 30 September 2018, the Fund has an exposure of 57.62% in Australian assets. The Manager has the ability to hedge this exposure but does not currently do so.

#### **Target investment mix**

| Asset sector              | Target Asset<br>Allocation % | Range %  |
|---------------------------|------------------------------|----------|
| Cash and cash equivalents | 5                            | 0 - 40   |
| Australasian equities     | 95                           | 40 - 100 |
| International equities    | 0                            | 0 - 5    |
| Listed property           | 0                            | 0 - 10   |

You can also obtain this information, the PDS for the Clarity Funds, and some additional information from the offer register at www.business.govt.nz/disclose.

 The Market Index used to calculate the returns on the bar chart from 1 April 2013 is 50% of the NZX50 Portfolio Index and 50% of the ASX200 Accumulation Index in New Zealand dollars. Between 1 November 2007 and 31 March 2013 the market index used was 50% NZSE50 Portfolio Index and 50% ASX 200 Index in New Zealand dollars.

# QUARTERLY FUND UPDATE

For the quarter ended 31 December 2018

This fund update was first made publicly available on 8 February 2019

## **CLARITY TRANS-TASMAN FUND**

#### What is the purpose of this update?

This document tells you how the Clarity Trans-Tasman Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Clarity Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

#### **Description of this fund**

The Fund aims to achieve returns over the medium to long term. It will invest in a well-diversified portfolio of primarily New Zealand and Australian listed equities, selected to favour those securities with higher earnings and dividend yields and strong net tangible asset backing. It will also hold cash for liquidity purposes and may invest in other assets on listed sharemarkets.

The Fund is actively managed. The actual holdings may differ considerably from the target mix of 95% Australasian equities (50:50 mix of Australian and New Zealand equities) and 5% cash.

| Total value of the fund | \$109,877,614   |
|-------------------------|-----------------|
| Date the fund started   | 1 November 2007 |

#### How has the fund performed?

#### What are the risks of investing?

Risk indicator for the Clarity Trans-Tasman Fund:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 31 December 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

|  | Avg. over past 5 Years | Past Year |
|--|------------------------|-----------|
| Annual Fund Return (after deduction for fund charges and tax)          | 6.52%                  | -15.69%   |
| Annual Fund Return (after deduction for fund charges but before tax)   | 7.81%                  | -14.87%   |
| Market index annual return (reflects no deduction for charges and tax) | 9.54%                  | -1.16%    |

We calculate the market index annual return from 1 April 2013 by using 50% of the NZX50 Portfolio Index and 50% of the ASX200 Accumulation Index in NZ dollars. Between 1 November 2007 and 31 March 2013 the market index return was based on 50% NZSE50 Portfolio Index and 50% ASX 200 Index in NZ dollars. Additional information about the market index is available on the offer register at www.business.govt.nz/disclose.

#### Annual return graph<sup>1</sup>

This shows the return after fund charges and tax for each of the last 10 years ending 31 March. The last bar shows the average annual return for the last 10 completed years to 31 December 2018. **Important**: This does not tell you how the fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower.

#### What fees are investors charged?

Investors in the Clarity Trans-Tasman Fund are charged fund charges. In the year to 31 March 2018 these were:

| % of   | Net Asset Value |
|--|-----------------|
| Total Fund Charges (incl GST)  | 1.06%           |
| Comprising management and administration charges which are made up of: |                 |
| Manager's basic fee  | 0.66%           |
| Other management and administration charges                            | 0.40%           |

There are no performance fees charged in relation to the Clarity Trans-Tasman Fund.

Investors are not charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

#### Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Chris had \$10,000 in the Clarity Trans-Tasman Fund at the start of the year and did not make any further contributions. At the end of the year, Chris received a return after fund charges were deducted of -\$1487 (that is -14.87% of his initial \$10,000). Chris does not pay any other charges. This gives Chris a total return after tax of -\$1569 for the year.

### What does the fund invest in?

The chart (below) shows the types of assets that the Clarity Trans-Tasman Fund invests in.

#### Actual investment mix

As at 31 December 2018, the Fund has a foreign currency exposure of 51.63% in Australian assets. The Manager has the ability to hedge this exposure but does not currently do so.

#### Target investment mix

| Asset sector              | Target Asset<br>Allocation % | Range %  |
|---------------------------|------------------------------|----------|
| Cash and cash equivalents | 5                            | 0 - 40   |
| Australasian equities     | 95                           | 40 - 100 |
| International equities    | 0                            | 0 - 5    |
| Listed property           | 0                            | 0 - 10   |
| Other assets              | 0                            | 0 - 10   |
| Total asset allocation    | 100                          |          |

#### Top 10 investments

| Asset name                     | Country | Туре                  | Credit rating (if applicable) | % of fund net assets |
|--------------------------------|---------|-----------------------|-------------------------------|----------------------|
| BHP Group Ltd                  | AU      | Australasian Equities |                               | 6.02%                |
| Contact Energy Ltd             | NZ      | Australasian Equities |                               | 5.34%                |
| Genesis Energy Ltd             | NZ      | Australasian Equities |                               | 4.55%                |
| Metlifecare Ltd                | NZ      | Australasian Equities |                               | 4.53%                |
| Sanford Ltd                    | NZ      | Australasian Equities |                               | 4.27%                |
| Westpac Banking Corp           | AU      | Australasian Equities |                               | 4.14%                |
| AGL Energy Limted              | AU      | Australasian Equities |                               | 3.96%                |
| Seven Group Holdings Ltd       | AU      | Australasian Equities |                               | 3.96%                |
| Australia and NZ Banking Group | AU      | Australasian Equities |                               | 3.86%                |
| Scales Corporation Limited     | NZ      | Australasian Equities |                               | 3.75%                |

The top 10 investments make up 44.38% of the net asset value of the Fund.

#### Key personnel

#### **Further information**

You can also obtain this information, the PDS for the Clarity Funds, and some additional information from the offer register at www.business.govt.nz/disclose.

 The Market Index used to calculate the returns on the bar chart from 1 April 2013 is 50% of the NZX50 Portfolio Index and 50% of the ASX200 Accumulation Index in New Zealand dollars. Between 1 November 2007 and 31 March 2013 the market index used was 50% NZSE50 Portfolio Index and 50% ASX 200 Index in New Zealand dollars.

# Clarity Funds Scheme QUARTERLY FUND UPDATE

#### For the quarter ended 31 March 2018

This fund update was first made publicly available on 1 May 2018

# **CLARITY GLOBAL SHARES FUND**

#### What is the purpose of this update?

This document tells you how the Clarity Global Shares Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Clarity Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

#### **Description of this fund**

The Fund aims to achieve returns over the medium to long term by investing in a portfolio of well-diversified global securities listed on sharemarkets around the world. These assets may include listed equities, exchange traded funds, currency positions and cash.

| Total value of the fund   | \$ 82,034,230 |
|---------------------------|---------------|
| The date the fund started | 3 April 2017  |

#### What are the risks of investing?

Risk indicator for the Clarity Global Shares Fund<sup>1</sup>:

Lower expected returns

returns Higher expected returns

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at **www.sorted.org.nz/tools/investor-kickstarter**.

Note that even the lowest category does not mean a riskfree investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 31 March 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

### How has the fund performed?

|   | Past year      |
|---|----------------|
| Annual return (after deductions for charges and tax)                    | Not applicable |
| Annual return (after deductions for charges but before tax)             | Not applicable |
| Market index annual return (reflects no deductions for charges and tax) | 11.95%         |

The market index annual return reflects the return for the MSCI All Country World ex-Tobacco Index (net dividends reinvested), measured in NZ dollars, 50% hedged to NZ dollars benchmark index. Additional information about the market index is available on the offer register at **www.business.govt.nz/disclose**.

#### What fees are investors charged?

Investors in the Clarity Global Shares Fund are charged fund charges. Based on the PDS dated 24 July 2017, these are expected to be:

|  | % of net<br>asset value |
|--|-------------------------|
| Estimated Total Fund Charges <sup>2</sup>                                    | 1.00%                   |
| Comprising management and<br>administration charges which are<br>made up of: |                         |
| Manager's basic fee  | 0.65%                   |
| Other management and administration charges                                  | 0.35%                   |

There are no performance fees charged in relation to the Clarity Global Shares Fund.

Investors are not charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

# Example of how this applies to an investor<sup>3</sup>

Small differences in fees and charges can have a big impact on your investment over the long term.

Sarah had \$100,000 in the Clarity Global Shares Fund on the date the fund started, 3 April 2017 and did not make any further contributions. At the end of the period ending 31 March 2018, Sarah received a return after fund charges were deducted of \$8,930 (that is 8.93% of her initial \$100,000). Sarah does not pay any other charges. This gives Sarah a total return after tax of \$7,480 for the year.

#### What does the fund invest in?

This shows the types of assets that the Clarity Global Shares Fund invests in

#### Actual investment mix

As at 31 March 2018, the Fund has an exposure of 99.5% in overseas assets and 47.0% of these assets are hedged.

# Target investment mix

| Asset sector              | Target asset % allocation | Range % |  |
|---------------------------|---------------------------|---------|--|
| Cash and cash equivalents | 5                         | 0 - 20  |  |
| Australasian equities     | 0                         | 0 - 20  |  |
| International equities    | 95                        | 0 - 100 |  |
| Listed property           | 0                         | 0 -10   |  |
| Other assets              | 0                         | 0 -5    |  |
| Total asset allocation    | 100                       |         |  |

#### **Further information**

You can also obtain this information, the PDS for the Clarity Funds, and some additional information from the offer register at www.business.govt.nz/disclose.

#### **Notes**

- 1. As the Fund commenced operations on 3 April 2017, a combination of actual fund returns and market index returns were used to determine the risk indicator. Therefore, it may provide a less reliable indicator of potential future volatility. For the five-year period ending 31 March 2018, market index returns have been used to 2 April 2017 with actual fund returns used for the balance of the period.
- 2. These fees are disclosed on a before-GST basis. Please refer to the PDS for further information.
- 3. As the Fund has not existed for a full financial year, this example is based on returns for the period 3 April 2017 to 31 March 2018.

If you have any questions please contact us on +64 09 308 1450 or visit our website **www.clarityfunds.co.nz** 

# Clarity Funds Scheme QUARTERLY FUND UPDATE

#### For the quarter ended 30 June 2018

This fund update was first made publicly available on 26 July 2018

# **CLARITY GLOBAL SHARES FUND**

#### What is the purpose of this update?

This document tells you how the Clarity Global Shares Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Clarity Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

#### **Description of this fund**

The Fund aims to achieve returns over the medium to long term by investing in a portfolio of well-diversified global securities listed on sharemarkets around the world. These assets may include listed equities, exchange traded funds, currency positions and cash.

| Total value of the fund   | \$ 90,173,076 |
|---------------------------|---------------|
| The date the fund started | 3 April 2017  |

#### What are the risks of investing?

Risk indicator for the Clarity Global Shares Fund<sup>1</sup>:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at **www.sorted.org.nz/tools/investor-kickstarter**.

Note that even the lowest category does not mean a riskfree investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 30 June 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

#### How has the fund performed?

|   | Past year |
|---|-----------|
| Annual return (after deductions for charges and tax)                    | 14.25%    |
| Annual return (after deductions for charges but before tax)             | 14.50%    |
| Market index annual return (reflects no deductions for charges and tax) | 16.28%    |

The market index annual return reflects the return for the MSCI All Country World ex-Tobacco Index (net dividends reinvested), measured in NZ dollars, 50% hedged to NZ dollars benchmark index. Additional information about the market index is available on the offer register at **www.business.govt.nz/disclose**.

#### What fees are investors charged?

Investors in the Clarity Global Shares Fund are charged fund charges. In the year to 31 March 2018 these were:

|  | % of net<br>asset value |
|--|-------------------------|
| Total Fund Charges (incl GST)  | 0.98%                   |
| Comprising management and<br>administration charges which are<br>made up of: |                         |
| Manager's basic fee  | 0.61%                   |
| Other management and administration charges                                  | 0.37%                   |

There are no performance fees charged in relation to the Clarity Global Shares Fund.

Investors are not charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

#### Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Sarah had \$100,000 in the Clarity Global Shares Fund at the start of the year and did not make any further contributions. At the end of the year, Sarah received a return after fund charges were deducted of \$14,500 (that is 14.50% of her initial \$100,000). Sarah does not pay any other charges. This gives Sarah a total return after tax of \$14,250 for the year.

#### What does the fund invest in?

This shows the types of assets that the Clarity Global Shares Fund invests in

#### **Actual investment mix**

As at 30 June 2018, the Fund has an exposure of 99.4% in overseas assets and 46.2% of these assets are hedged.

## Target investment mix

| Asset sector              | Target asset % allocation | Range % |  |
|---------------------------|---------------------------|---------|--|
| Cash and cash equivalents | 5                         | 0 - 20  |  |
| Australasian equities     | 0                         | 0 - 20  |  |
| International equities    | 95                        | 0 - 100 |  |
| Listed property           | 0                         | 0 -10   |  |
| Other assets              | 0                         | 0 -5    |  |
| Total asset allocation    | 100                       |         |  |

### **Further information**

You can also obtain this information, the PDS for the Clarity Funds, and some additional information from the offer register at **www.business.govt.nz /disclose**.

#### Notes

1. As the Fund commenced operations on 3 April 2017, a combination of actual fund returns and market index returns were used to determine the risk indicator. Therefore, it may provide a less reliable indicator of potential future volatility. For the five-year period ending 30 June 2018, market index returns have been used to 2 April 2017 with actual fund returns used for the balance of the period.

# QUARTERLY FUND UPDATE

For the quarter ended 30 September 2018 This fund update was first made publicly available on 29 October 2018

# **CLARITY GLOBAL SHARES FUND**

#### What is the purpose of this update?

This document tells you how the Clarity Global Shares Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Clarity Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

#### **Description of this fund**

The Fund aims to achieve returns over the medium to long term by investing in a portfolio of well-diversified global securities listed on sharemarkets around the world.

These assets may include listed equities, exchange traded funds, currency positions and cash.

| Total value of the fund | \$108,571,734 |
|-------------------------|---------------|
| Date the fund started   | 3 April 2017  |

#### What are the risks of investing?

Risk indicator for the Clarity Global Shares Fund<sup>1</sup>:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/ investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 30 September 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

#### How has the fund performed?

|  | Past Year |
|--|-----------|
| Annual Fund Return (after deduction for fund charges and tax)          | 13.88%    |
| Annual Fund Return (after deduction for fund charges but before tax)   | 14.16%    |
| Market index annual return (reflects no deduction for charges and tax) | 16.22%    |

The market index annual return reflects the return for the MSCI All Country World ex-Tobacco Index (net dividends reinvested), measured in NZ dollars, 50% hedged to NZ dollars benchmark index. Additional information about the market index is available on the offer register at www.business.govt.nz/disclose.

#### What fees are investors charged?

Investors in the Clarity Global Shares Fund are charged fund charges. In the year to 31 March 2018 these were:

| % of Ne  | t Asset Value |
|--|---------------|
| Total Fund Charges (incl GST)  | 1.06%         |
| Comprising management and administration charges which are made up of: |               |
| Manager's basic fee  | 0.66%         |
| Other management and administration charges                            | 0.40%         |

There are no performance fees charged in relation to the Clarity Global Shares Fund.

Investors are not charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

#### Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Chris had \$10,000 in the Clarity Global Shares Fund at the start of the year and did not make any further contributions. At the end of the year, Chris received a return after fund charges were deducted of \$1416 (that is 14.16% of his initial \$10,000). Chris does not pay any other charges. This gives Chris a total return after tax of \$1388 for the year.

#### What does the fund invest in?

The chart (right) shows the types of assets that the Clarity Global Shares Fund invests in.

#### Actual investment mix

As at 30 September 2018, the Fund has 98.50% invested in international equities and 44.03% of this exposure is hedged.

#### Target investment mix

| Asset sector              | Target Asset<br>Allocation % | Range % |
|---------------------------|------------------------------|---------|
| Cash and cash equivalents | 5                            | 0 - 20  |
| Australasian equities     | 0                            | 0 - 20  |
| International equities    | 95                           | 0 - 100 |
| Listed property           | 0                            | 0 -10   |
| Other assets              | 0                            | 0 -5    |
| Total asset allocation    | 100                          |         |

#### Top 10 investments

| Asset name                       | Country | Туре                   | Credit rating (if applicable) | % of fund net assets |
|----------------------------------|---------|------------------------|-------------------------------|----------------------|
| Alphabet Inc Class A             | US      | International Equities |                               | 2.33%                |

For the five-year period ending 30 September 2018, market index returns have been used to 2 April 2017 with actual fund returns used for the balance of the period.

# QUARTERLY FUND UPDATE

# For the quarter ended 31 December 2018

This fund update was first made publicly available on 8 February 2019

# **CLARITY GLOBAL SHARES FUND**

#### What is the purpose of this update?

This document tells you how the Clarity Global Shares Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Clarity Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

#### **Description of this fund**

The Fund aims to achieve returns over the medium to long term by investing in a portfolio of well-diversified global securities listed on sharemarkets around the world.

These assets may include listed equities, exchange traded funds, currency positions and cash.

| Total value of the fund | \$90,999,483 |
|-------------------------|--------------|
| Date the fund started   | 3 April 2017 |

#### What are the risks of investing?

Risk indicator for the Clarity Global Shares Fund<sup>1</sup>:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/ investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 31 December 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

#### How has the fund performed?

|  | Past Year |
|--|-----------|
| Annual Fund Return (after deduction for fund charges and tax)          | -7.23%    |
| Annual Fund Return (after deduction for fund charges but before tax)   | -6.68%    |
| Market index annual return (reflects no deduction for charges and tax) | -5.37%    |

The market index annual return reflects the return for the MSCI All Country World ex-Tobacco Index (net dividends reinvested), measured in NZ dollars, 50% hedged to NZ dollars benchmark index. Additional information about the market index is available on the offer register at **www.business.govt.nz/disclose**.

#### What fees are investors charged?

Investors in the Clarity Global Shares Fund are charged fund charges. In the year to 31 March 2018 these were:

| % of Ne  | t Asset Value |
|--|---------------|
| Total Fund Charges (incl GST)  | 1.06%         |
| Comprising management and administration charges which are made up of: |               |
| Manager's basic fee  | 0.66%         |
| Other management and administration charges                            | 0.40%         |

There are no performance fees charged in relation to the Clarity Global Shares Fund.

Investors are not charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

#### Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Chris had \$10,000 in the Clarity Global Shares Fund at the start of the year and did not make any further contributions. At the end of the year, Chris received a return after fund charges were deducted of -\$668 (that is -6.68% of his initial \$10,000). Chris does not pay any other charges. This gives Chris a total return after tax of -\$723 for the year.

#### What does the fund invest in?

Risk indicator for the Clarity Diversified Income Fund<sup>1</sup>:

| Lower | expecte | d return | s Hig | gher ex | pected | returns |
|-------|---------|----------|-------|---------|--------|---------|
| 1     | 2       | 3        | 4     | 6       | 6      | 7       |
| Lower | risk    |          |       |         | High   | er risk |

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at **www.sorted.org.nz/tools/investor-kickstarter**.

Note that even the lowest category does not mean a riskfree investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 31 March 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

### How has the fund performed?

|   | Past year      |
|---|----------------|
| Annual return (after deductions for charges and tax)                    | Not applicable |
| Annual return (after deductions for charges but before tax)             | Not applicable |
| Market index annual return (reflects no deductions for charges and tax) | 3.48%          |

The market index annual return reflects the return for S&P/NZX Bank Bills 90-Day +1.5% benchmark index. Additional information about the market index is available on the offer register at **www.business.govt.nz/disclose**.

#### What fees are investors charged?

Investors in the Clarity Diversified Income Fund are charged fund charges. Based on the PDS date 24 July 2017, these are expected to be:

|  | % of net<br>asset value |
|--|-------------------------|
| Estimated Total Fund Charges <sup>2</sup>                                    | 0.95%                   |
| Comprising management and<br>administration charges which are<br>made up of: |                         |
| Manager's basic fee  | 0.60%                   |
| Other management and administration charges                                  | 0.35%                   |

There are no performance fees charged in relation to the Clarity Diversified Income Fund.

Investors are not charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

# Example of how this applies to an investor<sup>3</sup>

Small differences in fees and charges can have a big impact on your investment over the long term.

Sarah had \$100,000 in the Clarity Diversified Income Fund on the date the fund started, 3 April 2017 and did not make any further contributions. At the end of the period ending 31 March 2018, Sarah received a return after fund charges were deducted of \$3,400 (that is 3.40% of her initial \$100,000). Sarah does not pay any other charges. This gives Sarah a total return after tax of \$2,540 for the period.

#### What does the fund invest in?

This shows the types of assets that the Clarity Diversified Income Fund invests in

#### **Actual investment mix**

As at 31 March 2018, the Fund has 8.6% invested in Australian assets and 88.8% of this exposure is hedged.

### **Target investment mix**

| Asset sector                 | Target asset % allocation | Range % |

#### **Further information**

You can also obtain this information, the PDS for the Clarity Funds, and some additional information from the offer register at www.business.govt.nz/disclose.

#### Notes

- 1. As the Fund commenced operations on 3 April 2017, a combination of actual fund returns and market index returns were used to determine the risk indicator. Therefore, it may provide a less reliable indicator of potential future volatility. For the five-year period ending 31 March 2018, market index returns have been used to 2 April 2017 with actual fund returns used for the balance of the period.
- 2. These fees are disclosed on a before-GST basis. Please refer to the PDS for further information.
- 3. As the Fund has not existed for a full financial year, this example is based on returns for the period 3 April 2017 to 31 March 2018.

# Clarity Funds Scheme QUARTERLY FUND UPDATE

#### For the quarter ended 30 June 2018

This fund update was first made publicly available on 26 July 2018

# **CLARITY DIVERSIFIED INCOME FUND**

#### What is the purpose of this update?

This document tells you how the Clarity Diversified Income Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Clarity Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

### **Description of this fund**

The Fund aims to achieve returns over the medium term by investing in a portfolio of well diversified growth oriented securities. It favours securities that produce higher earnings and dividend yields.

The Fund may invest in managed funds (including the Clarity Dividend Yield Fund and the Clarity Fixed Income Fund), directly held shares, cash and fixed interest securities primarily in Australasia. It may also invest in other assets on other listed sharemarkets.

| Total value of the fund   | \$ 6,069,303 |
|---------------------------|--------------|
| The date the fund started | 3 April 2017 |

#### What are the risks of investing?

Risk indicator for the Clarity Diversified Income Fund<sup>1</sup>:

#### Lower expected returns Higher expected returns

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at **www.sorted.org.nz/tools/investor-kickstarter**.

Note that even the lowest category does not mean a riskfree investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 30 June 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

#### How has the fund performed?

|   | Past year |
|---|-----------|
| Annual return (after deductions for charges and tax)                    | 4.33%     |
| Annual return (after deductions for charges but before tax)             | 5.32%     |
| Market index annual return (reflects no deductions for charges and tax) | 3.46%     |

The market index annual return reflects the return for S&P/NZX Bank Bills 90-Day +1.5% benchmark index. Additional information about the market index is available on the offer register at **www.business.govt.nz/disclose**.

#### What fees are investors charged?

Investors in the Clarity Diversified Income Fund are charged fund charges. In the year to 31 March 2018 these were:

|  | % of net<br>asset value |
|--|-------------------------|
| Total Fund Charges (Incl GST)  | 0.90%                   |
| Comprising management and<br>administration charges which are<br>made up of: |                         |
| Manager's basic fee  | 0.54%                   |
| Other management and administration charges                                  | 0.36%                   |

There are no performance fees charged in relation to the Clarity Diversified Income Fund.

Investors are not charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

#### Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Sarah had \$100,000 in the Clarity Diversified Income Fund at the start of the year and did not make any further contributions. At the end of the year, Sarah received a return after fund charges were deducted of \$5,320 (that is 5.32% of her initial \$100,000). Sarah does not pay any other charges. This gives Sarah a total return after tax of \$4,330 for the period.

#### What does the fund invest in?

This shows the types of assets that the Clarity Diversified Income Fund invests in

#### **Actual investment mix**

As at 30 June 2018, the Fund has 9.5% invested in Australian assets and 84.5% of this exposure is hedged.

## Target investment mix

| Asset sector                 | Target asset % allocation | Range % |
|------------------------------|---------------------------|---------|
| Cash and cash equivalents    | 10                        | 0 - 45  |

#### **Further information**

You can also obtain this information, the PDS for the Clarity Funds, and some additional information from the offer register at **www.business.govt.nz/disclose**.

#### Notes

1. As the Fund commenced operations on 3 April 2017, a combination of actual fund returns and market index returns were used to determine the risk indicator. Therefore, it may provide a less reliable indicator of potential future volatility. For the five-year period ending 30 June 2018, market index returns have been used to 2 April 2017 with actual fund returns used for the balance of the period.

# QUARTERLY FUND UPDATE

For the quarter ended 30 September 2018 This fund update was first made publicly available on 29 October 2018

# **CLARITY DIVERSIFIED INCOME FUND**

#### What is the purpose of this update?

This document tells you how the Clarity Diversified Income Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Clarity Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

#### **Description of this fund**

The Fund aims to achieve returns over the medium term by investing in a portfolio of well diversified growth oriented securities. It favours securities that produce higher earnings and dividend yields.

The Fund may invest in managed funds (including the Clarity Dividend Yield Fund and the Clarity Fixed Income Fund), directly held shares, cash and fixed interest securities primarily in Australasia. It may also invest in other assets on other listed sharemarkets.

| Total value of the fund | \$6,269,382  |
|-------------------------|--------------|
| Date the fund started   | 3 April 2017 |

#### How has the fund performed?

#### What are the risks of investing?

Risk indicator for the Clarity Fixed Income Fund<sup>1</sup>:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/ investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 30 September 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

|  | Past Year |
|--|-----------|
| Annual Fund Return (after deduction for fund charges and tax)          | 4.05%     |
| Annual Fund Return (after deduction for fund charges but before tax)   | 5.06%     |
| Market index annual return (reflects no deduction for charges and tax) | 3.49%     |

The market index annual return reflects the return for S&P/NZX Bank Bills 90-Day +1.5% benchmark index. Additional information about the market index is available on the offer register at www.business.govt.nz/disclose.

#### What fees are investors charged?

Investors in the Clarity Diversified Income Fund are charged fund charges. In the year to 31 March 2018 these were:

| % of Net   | Asset Value |
|--|-------------|
| Total Fund Charges (incl GST)  | 1.01%       |
| Comprising management and administration charges which are made up of: |             |
| Manager's basic fee  | 0.61%       |
| Other management and administration charges                            | 0.40%       |
|  |             |

There are no performance fees charged in relation to the Clarity Diversified Income Fund.

Investors are not charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

#### Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Chris had \$10,000 in the Clarity Diversified Income Fund at the start of the year and did not make any further contributions. At the end of the year, Chris received a return after fund charges were deducted of \$506 (that is 5.06% of his initial \$10,000). Chris does not pay any other charges. This gives Chris a total return after tax of \$405 for the year.

#### What does the fund invest in?

The chart (right) shows the types of assets that the Clarity Diversified Income Fund invests in.

### Actual investment mix

As at 30 September 2018, the Fund has 10.2% invested in Australian assets and 96.4% of this exposure is hedged.

# Target investment mix

| Asset sector                 | Target Asset<br>Allocation % | Range % |  |

#### **Further information**

You can also obtain this information, the PDS for the Clarity Funds, and some additional information from the offer register at www.business.govt.nz/disclose.

Notes

 As the Fund commenced operations on 3 April 2017, a combination of actual fund returns and market index returns were used to determine the risk indicator. Therefore, it may provide a less reliable indicator of potential future volatility. For the five-year period ending 31 March 2018, market index returns have been used to 2 April 2017 with actual fund returns used for the balance of the period.

# CLARITY FUNDS SCHEME QUARTERLY FUND UPDATE

# For the quarter ended 31 December 2018

This fund update was first made publicly available on 8 February 2019

# **CLARITY DIVERSIFIED INCOME FUND**

#### What is the purpose of this update?

This document tells you how the Clarity Diversified Income Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Clarity Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

#### **Description of this fund**

The Fund aims to achieve returns over the medium term by investing in a portfolio of well-diversified growth oriented securities with an income bias (selected to favour those securities with higher earnings and dividend yield and/or interest payments).

The Fund may invest in managed funds (including the Clarity Dividend Yield Fund and the Clarity Fixed Income Fund), directly held shares, cash and fixed interest securities primarily in Australasia. It may also invest in other assets on other listed sharemarkets.

| Total value of the fund | \$5,605,535  |
|-------------------------|--------------|
| Date the fund started   | 3 April 2017 |

#### How has the fund performed?

#### What are the risks of investing?

Risk indicator for the Clarity Diversified Income Fund<sup>1</sup>:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/ investor-kickstarter

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 31 December 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

|  | Past Year |
|--|-----------|
| Annual Fund Return (after deduction for fund charges and tax)          | 0.70%     |
| Annual Fund Return (after deduction for fund charges but before tax)   | 1.84%     |
| Market index annual return (reflects no deduction for charges and tax) | 3.50%     |

The market index annual return reflects the return for S&P/NZX Bank Bills 90-Day +1.5% benchmark index. Additional information about the market index is available on the offer register at www.business.govt.nz/disclose.

#### What fees are investors charged?

Investors in the Clarity Diversified Income Fund are charged fund charges. In the year to 31 March 2018 these were:

| % of Net.  | Asset Value |
|--|-------------|
| Total Fund Charges (incl GST)  | 1.01%       |
| Comprising management and administration charges which are made up of: |             |
| Manager's basic fee  | 0.61%       |
| Other management and administration charges                            | 0.40%       |
|  |             |

There are no performance fees charged in relation to the Clarity Diversified Income Fund.

Investors are not charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

#### Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Chris had \$10,000 in the Clarity Diversified Income Fund at the start of the year and did not make any further contributions. At the end of the year, Chris received a return after fund charges were deducted of \$184 (that is 1.84% of his initial \$10,000). Chris does not pay any other charges. This gives Chris a total return after tax of \$70 for the year.

#### What does the fund invest in?

The chart (below) shows the types of assets that the Clarity Diversified Income Fund invests in.

### Actual investment mix

As at 31 December 2018, the Fund has 8.26% invested in Australian assets and 98.57% of this foreign currency exposure is hedged.

#### Target investment mix

| Asset sector                 | Target Asset<br>Allocation % | Range % |  |
|------------------------------|------------------------------|---------|--|

#### **Further information**

You can also obtain this information, the PDS for the Clarity Funds, and some additional information from the offer register at www.business.govt.nz/disclose.

1. As the Fund commenced operations on 3 April 2017, a combination of actual fund returns and market index returns were used to determine the risk indicator. Therefore, it may provide a less reliable indicator of potential future volatility. For the five-year period ending 31 December 2018, market index returns have been used to 2 April 2017 with actual fund returns used for the balance of the period.

# Clarity Funds Scheme QUARTERLY FUND UPDATE

#### For the quarter ended 31 March 2018

This fund update was first made publicly available on 1 May 2018

# **CLARITY DIVERSIFIED GROWTH FUND**

#### What is the purpose of this update?

This document tells you how the Clarity Diversified Growth Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Clarity Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

### **Description of this fund**

The Fund aims to achieve returns over the medium to long term by investing in a range of growth orientated securities. The Fund invests in managed funds (including the Clarity Trans-Tasman and Clarity Global Shares Funds) and directly held shares across global markets. It may also invest in other assets on listed sharemarkets.

| Total value of the fund   | \$ 2,757,380  |
|---------------------------|---------------|
| The date the fund started | 03 April 2017 |

#### What are the risks of investing?

Risk indicator for the Clarity Diversified Growth Fund<sup>1</sup>:

Lower expected returns Higher expected returns 1 2 3 4 5 6 7 Lower risk Higher risk

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a riskfree investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 31 March 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

### How has the fund performed?

|   | Past year      |
|---|----------------|
| Annual return (after deductions for charges and tax)                    | Not applicable |
| Annual return (after deductions for charges but before tax)             | Not applicable |
| Market index annual return (reflects no deductions for charges and tax) | 9.81%          |

We calculate the market index annual return by using 25% of the NZX50 Portfolio Index, 25% of the ASX200 Accumulation Index in NZ dollars and 50% MSCI All Country World ex-Tobacco Index (net dividends reinvested), measured in NZ dollars, 50% hedged to NZ dollars. Additional information about the market index is available on the offer register at **www.business.govt.nz/disclose**.

#### What fees are investors charged?

Investors in the Clarity Diversified Growth Fund are charged fund charges. Based on the PDS dated 24 July 2017, these are expected to be:

|  | % of net<br>asset value |
|--|-------------------------|
| Estimated Total Fund Charges <sup>2</sup>                                    | 1.10%                   |
| Comprising management and<br>administration charges which are<br>made up of: |                         |
| Manager's basic fee  | 0.75%                   |
| Other management and administration charges                                  | 0.35%                   |

There are no performance fees charged in relation to the Clarity Diversified Growth Fund.

Investors are not charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

#### What does the fund invest in?

This shows the types of assets that the Clarity Diversified Growth Fund invests in

### Actual investment mix

As at 31 March 2018, the Fund has 47.9% of assets invested in international equities and 47.0% of this exposure is hedged.

# Example of how this applies to an investor<sup>3</sup>

Small differences in fees and charges can have a big impact on your investment over the long term.

Sarah had \$100,000 in the Clarity Diversified Growth on the date the fund started, 3 April 2017 and did not make any further contributions. At the end of the period ending 31 March 2018, Sarah received a return after fund charges were deducted of \$8,170 (that is 8.17% of her initial \$100,000). Sarah does not pay any other charges. This gives Sarah a total return after tax of \$7,040 for the period.

# Target investment mix

| Asset sector              | Target asset % allocation | Range % |
|---------------------------|---------------------------|---------|
| Cash and cash equivalents | 8                         | 0 - 25  |
| Australasian equities     | 45                        | 0 - 70  |
| International equities    | 47                        | 0 - 70  |

#### **Further information**

You can also obtain this information, the PDS for the Clarity Funds, and some additional information from the offer register at **www.business.govt.nz /disclose**.

#### Notes

- As the Fund commenced operations on 3 April 2017, a combination of actual fund returns and market index returns were used to determine the risk indicator. Therefore, it may provide a less reliable indicator of potential future volatility. For the five-year period ending 31 March 2018, market index returns have been used to 2 April 2017 with actual fund returns used for the balance of the period.
- 2. These fees are disclosed on a before-GST basis. Please refer to the PDS for further information.
- 3. As the Fund has not existed for a full financial year, this example is based on returns from 3 April 2017 to 31 March 2018.

# Clarity Funds Scheme QUARTERLY FUND UPDATE

#### For the quarter ended 30 June 2018

This fund update was first made publicly available on 26 July 2018

# **CLARITY DIVERSIFIED GROWTH FUND**

#### What is the purpose of this update?

This document tells you how the Clarity Diversified Growth Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Clarity Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

### **Description of this fund**

The Fund aims to achieve returns over the medium to long term by investing in a range of growth orientated securities. The Fund may invest in managed funds (including the Clarity Trans-Tasman and Clarity Global Shares Funds) and directly held shares across global markets. It may also invest in other assets on listed sharemarkets.

| Total value of the fund   | \$ 4,201,250  |
|---------------------------|---------------|
| The date the fund started | 03 April 2017 |

#### What are the risks of investing?

Risk indicator for the Clarity Diversified Growth Fund<sup>1</sup>:

Lower expected returns Higher expected returns

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 30 June 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

### How has the fund performed?

|   | Past year |
|---|-----------|
| Annual return (after deductions for charges and tax)                    | 14.12%    |
| Annual return (after deductions for charges but before tax)             | 14.84%    |
| Market index annual return (reflects no deductions for charges and tax) | 17.08%    |

We calculate the market index annual return by using 25% of the NZX50 Portfolio Index, 25% of the ASX200 Accumulation Index in NZ dollars and 50% MSCI All Country World ex-Tobacco Index (net dividends reinvested), measured in NZ dollars, 50% hedged to NZ dollars. Additional information about the market index is available on the offer register at **www.business.govt.nz/disclose**.

#### What fees are investors charged?

Investors in the Clarity Diversified Growth Fund are charged fund charges. In the year to 31 March 2018 these were:

|  | % of net<br>asset value |
|--|-------------------------|
| Total Fund Charges (incl GST)  | 1.01%                   |
| Comprising management and<br>administration charges which are<br>made up of: |                         |
| Manager's basic fee  | 0.66%                   |
| Other management and administration charges                                  | 0.35%                   |

There are no performance fees charged in relation to the Clarity Diversified Growth Fund.

Investors are not charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

# Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Sarah had \$100,000 in the Clarity Diversified Growth at the start of the year and did not make any further contributions. At the end of the year Sarah received a return after fund charges were deducted of \$14,840 (that is 14.84% of her initial \$100,000). Sarah does not pay any other charges. This gives Sarah a total return after tax of \$14,120 for the period.

#### What does the fund invest in?

This shows the types of assets that the Clarity Diversified Growth Fund invests in

#### Actual investment mix

As at 30 June 2018, the Fund has 46.7% of assets invested in international equities and 46.2% of this exposure is hedged.

# Target investment mix

| Asset sector              | Target asset % allocation | Range % |
|---------------------------|---------------------------|---------|
| Cash and cash equivalents | 6                         | 0 - 25  |

# QUARTERLY FUND UPDATE

For the quarter ended 30 September 2018 This fund update was first made publicly available on 29 October 2018

# **CLARITY DIVERSIFIED GROWTH FUND**

#### What is the purpose of this update?

This document tells you how the Clarity Diversified Growth Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Clarity Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

#### **Description of this fund**

The Fund aims to achieve returns over the medium to long term by investing in a range of growth orientated securities.

The Fund may invest in managed funds (including the Clarity Trans-Tasman and Clarity Global Shares Funds) and directly held shares across global markets. It may also invest in other assets on listed sharemarkets.

| Total value of the fund | \$4,577,987  |
|-------------------------|--------------|
| Date the fund started   | 3 April 2017 |

#### What are the risks of investing?

Risk indicator for the Clarity Diversified Growth Fund<sup>1</sup>:

| Lower   | expected | returns |   | Higher e | expected | returns  |
|---------|----------|---------|---|----------|----------|----------|
| 1       | 2        | 3       | 4 | 5        | 6        | 7        |
| lower r | isk      |         |   |          | hiq      | her risk |

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/ investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 30 September 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

#### How has the fund performed?

|  | Past Year |
|--|-----------|
| Annual Fund Return (after deduction for fund charges and tax)          | 10.42%    |
| Annual Fund Return (after deduction for fund charges but before tax)   | 11.06%    |
| Market index annual return (reflects no deduction for charges and tax) | 16.30%    |

We calculate the market index annual return by using 25% of the NZX50 Portfolio Index, 25% of the ASX200 Accumulation Index in NZ dollars and 50% MSCI All Country World ex-Tobacco Index (net dividends reinvested), measured in NZ dollars, 50% hedged to NZ dollars. Additional information about the market index is available on the offer register at www.business.govt.nz/disclose.

#### What fees are investors charged?

Investors in the Clarity Diversified Growth Fund are charged fund charges. In the year to 31 March 2018 these were:

| %  | 6 of Net Asset Value |
|--|----------------------|
| Total Fund Charges (incl GST)  | 1.16%                |
| Comprising management and administration charges which are made up of: |                      |
| Manager's basic fee  | 0.76%                |
| Other management and administration charge                             | s 0.40%              |

There are no performance fees charged in relation to the Clarity Diversified Growth Fund.

Investors are not charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

#### Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Chris had \$10,000 in the Clarity Diversified Growth Fund at the start of the year and did not make any further contributions. At the end of the year, Chris received a return after fund charges were deducted of \$1106 (that is 11.06% of his initial \$10,000). Chris does not pay any other charges. This gives Chris a total return after tax of \$1042 for the year.

#### What does the fund invest in?

The chart (right) shows the types of assets that the Clarity Diversified Growth Fund invests in.

#### **Actual investment Mix**

As at 30 September 2018, the Fund has 47.92% invested in international equities and 44.03% of this exposure is hedged. In addition to this, the Fund has Australian asset exposure of 26.80% and none of this exposure is hedged.

### Target investment mix

| Asset sector              | Target Asset<br>Allocation % | Range % |
|---------------------------|------------------------------|---------|
| Cash and cash equivalents | 6                            | 0 - 25  |
| Australasian equities     | 47                           | 0 - 70  |
| International equities    | 47                           | 0 - 70  |
| Listed property           | 0                            | 0 - 10  |
| Other assets              | 0                            | 0 - 10  |
| Total asset allocation    | 100                          |         |

#### Top 10 investments

#### **Further information**

You can also obtain this information, the PDS for the Clarity Funds, and some additional information from the offer register at www.business.govt.nz/disclose.

#### Notes

1. As the Fund commenced operations on 3 April 2017, a combination of actual fund returns and market index returns were used to determine the risk indicator. Therefore, it may provide a less reliable indicator of potential future volatility. For the five-year period ending 30 September 2018, market index returns have been used to 2 April 2017 with actual fund returns used for the balance of the period.

# QUARTERLY FUND UPDATE

For the quarter ended 31 December 2018

This fund update was first made publicly available on 8 February 2019

# **CLARITY DIVERSIFIED GROWTH FUND**

### What is the purpose of this update?

This document tells you how the Clarity Diversified Growth Fund has performed and what fees were charged. The document will help you to compare the fund with other funds. Clarity Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

### **Description of this fund**

The Fund aims to achieve returns over the medium to long term by investing in a range of growth orientated securities.

The Fund may invest in managed funds (including the Clarity Trans-Tasman and Clarity Global Shares Funds) and directly held shares across global markets. It may also invest in other assets on listed sharemarkets.

| Total value of the fund | \$3,583,513  |
|-------------------------|--------------|
| Date the fund started   | 3 April 2017 |

#### What are the risks of investing?

Risk indicator for the Clarity Diversified Growth Fund<sup>1</sup>:

| Lower   | expected | returns |   | Higher e | expected | returns  |
|---------|----------|---------|---|----------|----------|----------|
| 1       | 2        | 3       | 4 | 5        | 6        | 7        |
| lower r | isk      |         |   |          | hig      | her risk |

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/ investor-kickstarter.

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 31 December 2018. While risk indicators are usually relatively stable, they do shift from time to time. The risk indicator will continue to be updated in future fund updates.

See the Product Disclosure Statement (PDS) for more information about the risks associated with investing in this fund.

### How has the fund performed?

|  | Past Year |
|--|-----------|
| Annual Fund Return (after deduction for fund charges and tax)          | -10.78%   |
| Annual Fund Return (after deduction for fund charges but before tax)   | -10.08%   |
| Market index annual return (reflects no deduction for charges and tax) | -3.23%    |

We calculate the market index annual return by using 25% of the NZX50 Portfolio Index, 25% of the ASX200 Accumulation Index in NZ dollars and 50% MSCI All Country World ex-Tobacco Index (net dividends reinvested), measured in NZ dollars, 50% hedged to NZ dollars. Additional information about the market index is available on the offer register at **www.business.govt.nz/disclose**.

### What fees are investors charged?

Investors in the Clarity Diversified Growth Fund are charged fund charges. In the year to 31 March 2018 these were:

|  | % of Net Asset Value |
|--|----------------------|
| Total Fund Charges (incl GST)  | 1.16%                |
| Comprising management and administration charges which are made up of: |                      |
| Manager's basic fee  | 0.76%                |
| Other management and administration charg                              | ges 0.40%            |

There are no performance fees charged in relation to the Clarity Diversified Growth Fund.

Investors are not charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

### Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investment over the long term.

Chris had \$10,000 in the Clarity Diversified Growth Fund at the start of the year and did not make any further contributions. At the end of the year, Chris received a return after fund charges were deducted of -\$1,008 (that is -10.08% of his initial \$10,000). Chris does not pay any other charges. This gives Chris a total return after tax of -\$1,078 for the year.

#### What does the fund invest in?

The chart (below) shows the types of assets that the Clarity Diversified Growth Fund invests in.

### Actual investment Mix

As at 31 December 2018, the Fund has 72.00% of assets invested in overseas assets and 46.20% of this exposure is hedged.

# Target investment mix

| Asset sector              | Target Asset<br>Allocation % | Range % |
|---------------------------|------------------------------|---------|
| Cash and cash equivalents | 6                            | 0 - 25  |
| Australasian equities     | 47                           | 0 - 70  |
| International equities    | 47                           | 0 - 70  |
| Listed property           | 0                            | 0 - 10  |
| Other assets              | 0                            | 0 - 10  |
| Total asset allocation    | 100                          |         |

### Top 10 investments

| Asset name                     | Country | Туре                      | Credit rating (if applicable) | % of fund net assets |
|--------------------------------|---------|---------------------------|-------------------------------|----------------------|
| NZD Cash at Bank               | NZ      | Cash and Cash Equivalents |                               | 7.06%                |
