Risk indicator for the Daintree Core Income PIE:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

Notes

1. Because the Fund has not been operational for the required five years we have determined the risk indicator using a combination of index and actual returns. Therefore, it may provide a less reliable indicator of potential future volatility. For the five-year period ending 31 December 2025, market index returns have been used to 13 August 2024 with actual fund returns used for the balance of the period.

2. As the Fund has not been in existence for more than one financial year the total fund charges are estimated as disclosed in the PDS. Please refer to the PDS for further information.
