

QUARTERLY FUND UPDATE

For the quarter ended 31 March 2026

This fund update was first made publicly available on 1 May 2026

DAINTREE CORE INCOME PIE

What is the purpose of this update?

This document tells you how the Daintree Core Income PIE has performed and what fees were charged. The document will help you to compare the fund with other funds. Clarity Funds Management Limited prepared this update in accordance with the Financial Markets Conduct Act 2013. This information is not audited and may be updated.

Description of this fund

The Fund invests into the Daintree Core Income Trust with a diversified portfolio of international credit and fixed income securities and cash and applies a range of strategies that include duration and yield curve management, (actively managing the maturity profile of the portfolio), sector rotation and individual security selection. The aim of the Fund is to provide an absolute return (greater than cash) over time and a steady stream of income and capital stability over the medium term.

Total value of the fund	\$336,864,354
Date the fund started	14 August 2024

What are the risks of investing?¹

Risk indicator for the Daintree Core Income PIE:

The risk indicator is rated from 1 (low) to 7 (high). The rating reflects how much the value of the fund's assets goes up and down. A higher risk generally means higher potential returns over time, but more ups and downs along the way.

To help you clarify your own attitude to risk, you can seek financial advice or work out your risk profile at www.sorted.org.nz/tools/investor-kickstarter

Note that even the lowest category does not mean a risk-free investment, and there are other risks that are not captured by this rating.

This risk indicator is not a guarantee of a fund's future performance. The risk indicator is based on the returns data for the five year period to 31 March 2026. While risk indicators are usually relatively stable they do shift from time to time. The risk indicator will continue to be updated in future fund updates. See the [Product Disclosure Statement \(PDS\)](#) for more information about the risks associated with investing in this fund.

How has the fund performed?

	Past Year
Annual Fund Return (after deduction for fund charges and tax)	2.21%
Annual Fund Return (after deduction for fund charges but before tax)	3.08%
Market index annual return (reflects no deduction for charges and tax)	0.94%

The market index annual return reflects the return of the Bloomberg AusBond Composite 0-5 Yr, 100% hedged to NZD index. Additional information about the market index is available on the offer register at www.disclose-register.companiesoffice.govt.nz.

Annual return graph

This shows the return after fund charges and tax for each year ending 31 March since the fund started. The last bar shows the average annual return since the fund started up to 31 March 2026. Important: This does not tell you how the fund will perform in the future. Returns in this update are after tax at the highest prescribed investor rate (PIR) of tax for an individual New Zealand resident. Your tax may be lower. The market index return reflects no deduction for charges and tax.

What fees are investors charged?

Investors in the Daintree Core Income PIE are charged fund charges. In the year to 31 March 2026 these were:

	% of Net Asset Value
Total Fund Charges (incl GST)	0.73%
Comprising of the below management, administration and performance charges:	
Manager's basic fee:	0.56%
Other management and administration charges:	0.17%
Performance fees (if applicable):	0.00%

Investors may also be charged individual action fees for specific actions or decisions (for example, for withdrawing from or switching funds). See the PDS for more information about those fees.

Example of how this applies to an investor

Small differences in fees and charges can have a big impact on your investments over the long term.

Chris had \$10,000 in the Daintree Core Income PIE at the start of the year and did not make any further contributions. At the end of the year, Chris received a return after fund charges were deducted of \$308 (that is 3.08% of his initial \$10,000). Chris does not pay any other charges. This gives Chris a total return after tax of \$221 for the year.

What does the fund invest in?

The chart (below) shows the types of assets that the Daintree Core Income PIE invests in.

Further information

You can also obtain this information, the PDS for the Daintree Funds, and some additional information from the offer register at disclose-register.companiesoffice.govt.nz

Notes

1. Because the Fund has not been operational for the required five years we have determined the risk indicator using a combination of index and actual returns. Therefore, it may provide a less reliable indicator of potential future volatility. For the five-year period ending 31 March 2026, market index returns have been used to 13 August 2024 with actual fund returns used for the balance of the period.
